*Common Sense Gun  
Laws Safe Kids*

Each day that there is no action on this issue, we lose 8 more children and teens.

It's been more than six years since the Columbine tragedy. Congress still has not passed any sensible gun laws to protect our kids and families. More than 180,000 people in America have died from gunshots since April 20, 1999.

## WHO WE ARE

---

Founded in 1999, the Million Mom March is a national grassroots, chapter-based organization dedicated to preventing gun death and injury and supporting victims and survivors of gun violence by focusing on grassroots advocacy and education.

On October 1, 2001, the Million Mom March merged with the Brady and the Brady Center to Prevent Gun Violence.

We are dedicated to creating an America free from gun violence, where all Americans feel safe at home, at school, at work, and in their communities.

We are not an anti-gun organization. We want the industry and individuals to act responsibly. We want reasonable, common sense, enforceable laws. No matter how you feel about guns, there are certain principles everyone can support.

## WHY WE DO THIS

---

Every day 8 children and teens die, and many more are seriously injured by guns. They are victims of homicide, suicide, and unintentional shootings. 32.6% of America's teens said they can easily get a gun.

It's time to demand accountability from the gun lobby and our elected officials. Public safety demands responsible policies.

No child's life should end with a BANG!

Join the thousands of mothers and others as part of the grassroots movement to end gun trauma once and for all. Become a member of this historical movement.
